“Minds Advancing in  
Neurology and Neurosurgery”

# Invitation

On behalf of the Organizing Committee, we are delighted to invite you to the “Experts Meet on Neurology & Neurosurgery” which will be held in April 20-21, 2020, Paris, France.

We are gathering a world-class panel of expert speakers to address you from both, international and regional communities. This congress will provide you with a platform to share experiences and discuss breakthroughs in various specialist fields and a necessary criterion to successfully assess & expand your own practices. We have included keynote lectures, round table discussions, video sessions and abstract sessions covering a wide array of topics for you to be introduced to the latest technologies and techniques in the field of Neurology.

Neurology 2020 will also have several live surgical workshops and from the wide array of presentations submitted to us by the research committee, the scientific committee will choose the best ones to be presented during the congress and the best presentations will be recognized and awarded.

We have kept the registration fee at affordable rates to encourage the participation of young upcoming practitioners and scientists. The congress venue is conveniently located in the center of the city, close to the airport, metro stations, and shopping destinations. We are confident that this Congress will exceed your expectations, offering an exciting scientific event as well as an enjoyable social and cultural experience.

Interaction between speakers and the audience will once again be a key feature of the meeting, with open discussions aimed at better understanding the disease processes and available therapeutic options.

We would be very grateful if you could make suggestions on emerging topics in order to do provide the best service.

Your presence and participation will, as always, be the key in our work.

We look forward to meeting you all in Paris, France.

**Regards,**

# GLIMPSES OF OUR PAST CONFERENCES

# City Attractions

The capital city of France, Paris has endured as an important city for more than 2,000 years. Often called by nicknames like the “city of love” and “city of lights,” Paris is today one of the world’s leading centres for business, fashion, entertainment, art and culture. One of the most beautiful cities in the world. Home to historical monuments such as Notre Dame, the Eiffel tower (320m), Bastille, Louvre and many more. Much of the city was re-designed by Haussmann in the 19th century.

The river Seine divides the city into the Rive Gauche on the south and the Rive Droite on the north banks of the river. The river is still very busy with commercial barges transporting cargo in and out, there is also much. The historical name for the city is Parisii by the Gauls, however, the Romans arrived in 52 B.C. and changed the name to Lutetia.

As the capital of France, Paris transport system is clean, efficient and most importantly cheap. Other parts of the country are accessible from Paris in only a few hours, which makes for a large choice of day trips should you feel the need to escape the city.

One of the fun facts about Paris is that area of Montparnasse in Paris is named after Mount Parnassus from Greek mythology. Parnassus is where the Muses lived and for this reason was associated with many of the arts such as poetry and music, and learning. The many literature students who recited poetry in the streets on Montparnasse adopted the name, “(le) Mont Parnasse”.
