

An aerial photograph of a coastal town in South Africa, likely Cape Town, with a winding road along the ocean. The town is built on a hillside overlooking the sea. The road curves along the coastline, with waves crashing against the shore. The sky is a warm, golden color, suggesting sunset or sunrise. A bright yellow banner is overlaid on the top part of the image, containing the text for the congress.

INFECTIOUS & CHRONIC DISEASES CONGRESS

NOVEMBER 28-29, 2022

CAPE TOWN, SOUTH AFRICA

infectious-chronicdiseases.plenareno.com

INFECHRON 2022

SCOPE

Infectious and Chronic Diseases Congress provides up to date evidenced-based information regarding the diagnosis, prevention and management of rare & emerging infectious diseases and its epidemiology on controlling the pandemics.

InfeChron 2021 is a unique forum which brings together participants from clinical healthcare, anthropological and laboratory science backgrounds to explore a range of topics: the challenges of interdisciplinary approaches, derivatives from social science on the wide impact of infections, integrating control of neglected tropical diseases, immunology and microbiology of infectious diseases.

Pediatricians

Healthcare Professionals

Testimonials @plenarenevents

Peter Tunbdrige

I would thoroughly recommend this event, as using online platform enables speakers from all over the world to participate without the time consuming travel. It has sense of participation, I really enjoyed being a speak

Huang Wei Ling

I thank the organizing committee for inviting me to be speaker in this prestigious conference and have the opportunity to share my clinical experiences regarding the treatment of diabetes patients and it's complications and to hear the experiences of many professionals from all over the world. The conference was amazing, the organization was excellent

Georgiana Antoce

I found the conference very informative of high quality and exposing broad concepts about origin and treatment interventions for depression from a varied clinical and cultural perspective! Enjoyed it very much and look forward to future ones and am happy if invited again

Raffaele Pilla

Being part of your congress was very enriching. I had the chance to interact with some eminences of the field and collect some new ideas for future research propositions. Even if we cannot meet in person these days for "physical" conferences, I find virtual events like this to be extremely important for the community to keep growing and exchanging some ideas

Saqib Latif

The quality of the presentations was superb, they were on a range of topics covering whole lifespan, and various fields in Neuroscience. Excellent organization to ensure such a truly International event runs smoothly without any glitches. Thanks for the opportunity
